Judges will give clear preference to submissions that clearly show unique propositions with innovative thought and creative application.
 - ii. Technical content**
The technical dimension of your submission should demonstrate a clear understanding of the technical architecture required to deliver the proposed solution. iv. Originality of solution

One of the key criteria for the F1 Connectivity Innovation Prize is to demonstrate original thought that has the potential to deliver a transformative impact on the end-users of your proposals. This is the single most important criterion in the evaluation of your submission and an explicit statement of originality is strongly encouraged.

v. Feasibility of solution

Judges will make a viability assessment of each submission and applicants are encouraged to clearly outline the feasibility case from a technical perspective for their concept (no statement of financial viability is required)

Conformity to the brief is essential and applicants are reminded that any content that falls outside of the stipulated challenge requirements cannot be rewarded.
